MyChart allows you to create an online experience tailored just for your family, with information from the experts you trust at Nationwide Children's Hospital. We take great care to ensure your health information is kept private and secure.

MyChart is a tool families can use to access their child's medical record and manage their health care. Below are some of the features within MyChart.

- View your child's health summary
- Download your child's Health Record
- Request medical appointments with your child's care team
- Communicate electronically and securely with your medical care team
- View test results
- View Medications on file
- Request prescription renewals
- View Allergies and Immunizations on file
- View details about past appointments and hospital admissions

How to Sign Up for MyChart

MyChart Activation Codes are only provided during a clinic visit or inpatient stay. If you were not issued an activation code during your visit, you may request one at your next visit.

If you are a patient and over 13 years old, you may request an activation code for yourself.

Parents can access the medical records of all family members seen at Nationwide Children's from one "proxy" account.

Access to information is controlled through secure activation codes, personal usernames, and passwords. Each person controls their password, and the account cannot be accessed without that password. Proxy access will only be granted to parties with parental rights or legal guardianship over the patient. Nationwide Children's reserves the right to revoke proxy access at any time for any reason.

How to Activate Your Account

To get your MyChart account up and running, please work with your clinical staff to accomplish the following four steps.

Step 1
While at your clinic appointment or during your inpatient stay, request a MyChart account.

Step 2
In order to set-up your account, the Nationwide Children's registration staff will request some basic information from you. Once this is complete, you will be handed a MyChart Activation Code (specific to you) along with signup instructions.

Step 3
Visit MyChart.NationwideChildrens.org to enter the required activation code.

Note: codes expire 60 days after issue

Step 4
Begin using MyChart to connect with your child's care team.

If you have questions about MyChart, please ask your caregiver or visit **MyChart.NationwideChildrens.org**

Medical questions or concerns are to be directed to your doctor or caregiver. MyChart is not intended for medical emergencies. If you feel you have a medical emergency, please seek care immediately or call 911 as appropriate.
