Ivor Hill, MD, Named Section Chief of GI and Director of Celiac Center

Ivor Hill, MD, MB, ChB, DCH, FCP(SA), FAAP, pediatric gastroenterologist, joined Nationwide Children's in May to head the Celiac Disease Center. He was recently named Section Chief of Gastroenterology, a role that works closely with Carlo Di Lorenzo, MD, Division Chief of Gastroenterology, Hepatology and Nutrition. Dr. Hill, who is also Professor of Clinical Pediatrics at the Ohio State University College of Medicine, came to Nationwide Children's from Wake Forest University and Brenner Children's Hospital in North Carolina where he served as Section Chief of Pediatric Gastroenterology and was Professor of Pediatrics and Internal Medicine/Gastroenterology. One of the leading clinicians and researchers in childhood celiac disease, Dr. Hill has been instrumental in raising awareness of the disease in the U.S. He was the chair of the North American Society for Pediatric Gastroenterology, Hepatology and Nutrition (NASPGHAN) committee that developed the first evidence-based guidelines on diagnosis and treatment of celiac disease in children. Dr. Hill's clinical and research interests include multiple gastrointestinal diseases, focusing on celiac disease in children. His research specialties include infants with chronic diarrhea, effects of glutamine deficiency, A-gliadin peptide toxicity in the pathogenesis of celiac disease and the epidemiology of celiac disease. Visit **NationwideChildrens.org/Celiac-Disease** for more information and to listen to Dr. Hill explain his vision for the Celiac Disease Center in a video.
