

2013 Perinatal/Neonatal Conference

Improving Safety and Quality in Perinatal and Neonatal Care:
Current Concepts and Challenges

**NATIONWIDE
CHILDREN'S**

When your child needs a hospital, everything matters.SM

2013 Perinatal/Neonatal Conference

May 22-23, 2013 | Main Conference
Embassy Suites Dublin

May 24, 2013 | Post Conferences
Embassy Suites Dublin

The 2013 Perinatal/Neonatal Conference will highlight concepts of continuous quality improvement and safety in the perinatal and neonatal areas of practice. The rapidly expanding evidence in both specialties pose challenges for the professional to remain current and to recognize opportunities for change in thought and practice. The goal of the conference is to offer science, methodology, practice initiatives and discussion points for the participant to explore.

You are invited to participate in this learning endeavor, share your thoughts, and broaden your ability to support care of Perinatal patients, babies, parents and families in the healthcare setting.

Sincerely,

The Perinatal/Neonatal Conference Planning Committee
