

# Urgent Care Referrals

At Nationwide Children's, our Urgent Cares strive to provide high quality care for each patient. It is the goal of our staff to treat patients based on what is medically appropriate and return them to your practice for further evaluation and management.

The majority of our patients are brought by parents who have not contacted their Primary Care Physician prior to arrival. We approach their management by using existing guidelines and accepted standards of care.

However, please consider calling us directly anytime you or your staff has recommended your patients visit one of our Urgent Care locations. Our physicians will personally take your call to discuss medical background, management of the condition and any recommendations. By collaborating, we can better serve you and your patients.

**Contact our Urgent Care physicians directly by calling one of the numbers below:**
