

## FACULTY DEVELOPMENT

Faculty development (FD) is essential for effective graduate medical and dental education. Faculty, Program Directors, Department/Section Chiefs, and NCH share responsibility to maintain an environment conducive to teaching and learning.

## **Requirements**

Core faculty (faculty involved 10 or more hours per week in the program) must participate in a minimum of 2 hours of FD per year. See Faculty Development Procedure for a listing of topics that qualify as FD.

Program Directors must report FD activities on the annual program review. Programs failing to comply with the FD requirement may be subject to a GMEC Special Review.

Approved by GMEC: 4/17/2013
