

Welcome to Women's Board!

What an exciting time for Women's Board and Nationwide Children's Hospital. With the opening of the new hospital building and research facility, more state-of-the-art technology, cutting edge research and exceptional patient service are available to serve patients and their families. Women's Board is thrilled to be part of this new era. If you are interested in learning more about Women's Board, please check out our website. Women's Board is an auxiliary of Nationwide Children's dedicated to providing opportunities to raise awareness of the hospital in the local community and to raise critically needed funds. Our signature event each summer is the Junior Golf Classic. We are also working closely with the hospital staff to help educate the public on current health trends affecting children. Please watch our website for more information on our upcoming "Information Please" series.

If you are interested in joining this dynamic group of women dedicated to helping the children and families of Nationwide Children's Hospital please contact me.

Dee Dee English  
2012 Women's Board President
