Researchers Find Features to Accurately Distinguish Adenovirus from Kawasaki Disease in Children

Preeti Jaggi, MD, in the Section of Infectious Diseases at Nationwide Children's Hospital (*left*), and her team demonstrated that specific features of Kawasaki disease differentiate it from adenovirus in pediatric patients. Eunkyung Song, MD, fellow in the Section of Infectious Diseases (*right*), was first author of the study, which was published in *The Journal of Pediatrics*.

First Mouse Model of Common Exon Duplication Developed at Nationwide Children's

Kevin Flanigan, MD, a neurologist and principal investigator in the Center for Gene Therapy at The Research Institute at Nationwide Children's Hospital, and his colleagues have developed the first mouse model of the most common exon duplication found among patients with Duchenne muscular dystrophy (DMD). Read more in the *Pediatrics Nationwide* feature.

DISCOVERYx 2016: First TEDx Event to be Held at Nationwide Children's

Learn more about DISCOVERYx 2016, a live, TEDx-inspired event that will showcase ten presenters sharing their stories behind discoveries that have made a difference to improve pediatric health. Enthusiasts from all disciplines at Nationwide Children's are welcome to apply and selected presenters will experience professional coaching in preparation for this inaugural event, which will be held on Wednesday, June 15 from 1-4PM in Stecker Auditorium.

Save the NEW Date for Research Live: Monday, March 28

All are invited to attend the first Research Live show of 2016 on Monday, March 28 at 12PM in Discovery Auditorium (WA1020). Discover more about our childhood cancer research in a relaxed, upbeat conversation between host John Barnard, MD, president of The Research Institute at Nationwide Children's Hospital, and guest Stephen L. Lessnick, MD, PhD, director of the Center for Childhood Cancer and Blood Diseases.

Deena Chisolm, PhD, Principal Investigator in the Center for Innovation in Pediatric Practice, Featured on Nationwide Children's Hospital Tumblr

Nationwide Children's Hospital Tumblr endeavors to increase visibility and awareness of all roles and experiences among our 10,000-employee staff, all of whom uniquely shape the care we provide for our patient families. Together, we can foster a strong sense of inclusion and pride, because every one of our employees is critical to the hospital's mission.

2016 Futures Matter Program at The Research Institute

Find out more about the Futures Matter Program, a 10-week, paid summer research experience on the campus of The Research Institute at Nationwide Children's Hospital for sophomores and juniors in high school who have an interest in a biomedical research career.
