

aMAZING Fill-in-the-Organs

With a pen or pencil draw the path your digestion makes through the body. Write the names of the organs (from the Word Bank at the bottom of the page) that you find along the way!

ENTER HERE at the _____.

Your _____
and _____
_____ send bile to help break down fats.

_____ takes nutrients & extra water from chyme & uses billions of bacteria to make poop!

_____ takes vitamins and minerals out of chyme.

_____ smoothes food into "chyme."

Your _____ makes insulin so the body can use the energy in sugars and starches.

_____ ft. of Sm. Intestine
+ _____ ft. of Lg. Intestine
= 27 feet of GUTS!

(That's across a tennis court!)

27'

THE END of the journey.

Now your body has absorbed water and nutrients from your food, and send the rest out in a Peristaltic Rush! (You _____!)

WORD BANK:

☐ ESOPHAGUS

☐ GALL BLADDER

☐ LARGE INTESTINE

☐ LIVER

☐ PANCREAS

☐ POOP

☐ SMALL INTESTINE

☐ STOMACH
