Intranasal Diazepam (Valtoco®) Buufiska

Intranasal Diazepam (Valtoco®) Spray (Somali)

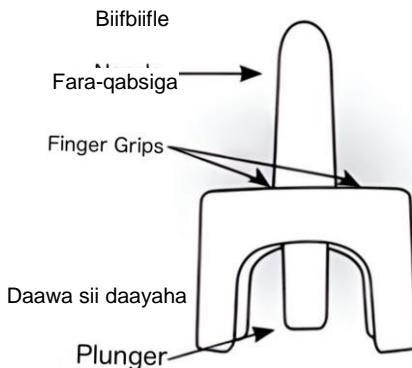

Diazepam waa magaca sooyaalka ee Valtoco®. Daawadu waa dhibco yar yar oo sanka laga siiya oo si degdeg ah loo nuugo. Waxay ka shaqeysaa maskaxda si ay u joojiso qallalka taxanaha ah iyo qallalka daba dheeraada. **Qallalka taxanaha** waxay u dhacaan si isku dhow-dhow oona wada jirah. **Qallalka daba dheeraada** waxa uu socdaa wax ka badan 5 daqiqadood. Qallaka waa in uu ku joogsadaa 5 daqiiqo dhaxdooda kadib markii la siiyo daawcada.

Digniin

Haddii ilmahaagu xasaasiyad ku qabo daawada diazepam-ka ha siinin daawadan. Ka eeg bogga 3-aad calaamadaha falcelinida xasaasiyadda iyo "Goora ay tahay in lawacaayo 911".

Siinta daawadaan

- Ha ka saarin dawada baakadda ilaa loo baahan yahay moyee.
- Diazepam waxaa laga siiyaa sanka (gudaha sanka).
