Weekly COVID-19 Dashboard
Hospital and Public Data

November 18, 2020

Nationwide Children's
*When your child needs a hospital, everything matters.*℠

Notes

- The following data only reflect pediatric patients with COVID-19 testing obtained at NCH. In addition to testing patients with symptoms suspicious for COVID-19, testing indications at NCH also include testing all hospitalized patients (regardless of indication for admission) and all patients prior to procedures.

- For the above reasons, these data are not broadly generalizable to the entire pediatric population of Central Ohio. Clinicians should refer to their local public health department for further information.
