

# Launch of Radiant Program

Community Partners Presentation  
September 27, 2016

# Introductions

- Host:  
**Matt Hughes,**  
**Physician Relations Manager**
- Featured Speaker:  
**Dr. Brent Adler,**  
**Radiologist**

# Agenda

- What's changing in Radiology procedures?
- Community Partner Impact
- Resources Available to You

# What's Changing?

- Beginning **November 5**, Radiant will...
  - Integrate with the rest of NCH Epic
  - Enhance integrated patient care
  - Streamline the scheduling of procedures
  - Enhance clinical documentation
  - Start using new procedure names
  - Integrate with PACS and Powerscribe

# Top 30 Community Procedures List

*Effective November 5, 2016*

TOP 30 COMMUNITY PROVIDER ORDERS	EQUATES TO	NEW NCH EPIC NAME CLINICAL ORDERABLES

- XR
  - Chest radiographs are now XR Chest
  - Acute abdominal series are XR Abdomen (with views)
  - XR Foot 2 View Left is now XR Foot – Left
  - Frog view versus Hip (which includes individual hips vs complete pelvis)
  - Supine Abdomen versus Upright Abdomen – Supine is a reasonable screen but the upright might be more appropriate for bowel abnormalities

# For Community Providers

Information

- Top 30 Community Procedures List
- Full NCH Radiology Procedures List
- Reference the Physician Liaison Website

# Compendium Updates

System Type	Impact	Timeline
Connected to CliniSync(OHIP) State HIE	CliniSync will work with you and your EMR vendor to update your Rad Orders	Starting in Late Sept
Any EMR System	NCH will provide a new list of orderable in an Excel format. Have your EMR vendor upload the file or add the orderable to your EMR system. *	Available Oct 1st 2016
eClinicalworks Contracted through NCH	All NCH contracted sites will get the new Rad orderable available Nov 5th	eClinicalworks \ NCH will start working with practices Starting Late Sept
Paper	PDF format will be available Oct 1st for any site on paper for clinical documentation	Available Oct 1st 2016

\* NCH will provide the Radiology Orderables that are specific to Nationwide Children's. Uploading or updating your Radiology orders is the responsibility of each site. Cost and system impact are responsibilities of each practice.

# Help with Ordering an NCH Procedure

Radiologists can help order the correct test, the first time

## Providers can get help at the moment of ordering

- For Protocols – To provide patient specific protocols and special instructions to the Technologists
- See the phone list for a consultation
  - Call the main number **(614) 722-2350**

# Final Recap

1. Radiant Rollout **November 5**
2. Orders and Procedures are changing
3. Use Your New List
4. Call **(614) 722-2350**

# Questions
