

Reason for taking this medicine:

- To help reduce and prevent swelling in the lungs.
  - This is a controller medicine and will not help if you are coughing, wheezing, or have shortness of breath.
- This is a medicine that must be used every day.

How and when to take this medicine:

- Use a spacer with this inhaler.
- Use 2 times each day 2 puffs in the morning and 2 puffs in the evening
- 1. The **first time** you use this inhaler:
  - Shake and then push down on the inhaler 4 times to prime or waste the inhaler.
  - Spray the medicine into the air.
  - Dose counter should show: "120."
- 2. Place the <u>inhaler</u> in the end of spacer.
- 3. Shake well for 10 seconds.
- Turn your head to the side and <u>breathe out.</u>
- 4. Close your mouth around the mouthpiece of the spacer.
  - Push down on the inhaler.
  - <u>Take a slow deep breath.</u>
  - If the spacer makes a whistle sound, breathe in slower.
- 5. Hold your breath for 10 seconds.
- 6. Wait 1 minute.
- Repeat steps 3–6 for second puff.

## Dry mouth

## Call the doctor or clinic if:

- You are exposed to chickenpox or measles.
- You can see blood when you spit.
- You have white spots in the mouth, called thrush.
- You have questions about this medicine or how to use it.

## Important things to remember:

Fill mouth with water

Swish around

water

Spit out water

- <u>Rinse your mouth out with water, brush teeth, or get a drink after every use. This can help avoid getting thrush.</u>
  If you suddenly have trouble breathing use your rescue.
  - If you suddenly have trouble breathing, <u>use your rescue</u> <u>inhaler, albuterol.</u>
  - Symbicort<sup>®</sup> may take a few weeks before it starts to work.
    Use this medicine until your doctor tells you to stop.
  - Never put metal canister in water.
  - Clean plastic holder each week:
    - Symbicort<sup>®</sup> has a built-in counter; do not remove the metal canister. Use a cotton swab to clean the opening where the medicine sprays out of the canister.
  - Clean spacer each week:
    - Soak in warm soapy water for 15 minutes.
    - Run water through it, shake off water, set out to dry.
  - Symbicort<sup>®</sup> has a dose counter to tell you when the inhaler is empty.
  - Refill your inhaler when the dose counter shows "020."
  - Throw the inhaler away 3 months after taking it out of the foil pouch, even if you have not used it all.
  - Store in a cool dry cabinet.
  - Do not store in bathroom.
  - Keep out of reach of children.

How to store:
