

Our newest medical staff for your patients

To schedule a referral with a Nationwide Children's Hospital -based physician, please call (614) 722-6200, or fax a referral to (614) 722-4000. You can now also make a referral online. Please visit us at **NationwideChildrens.org**.

Jonathan Napolitano, MD, is the Adaptive Sports Medicine Director

Jonathan Napolitano, MD, is the director of the new Adaptive Sports Medicine Program, a clinic developed to evaluate and treat athletes with physical disabilities. He is also the director of the Limb Deficiency Clinic, a multidisciplinary clinic to serve the prosthetic and orthotic needs of children with limb deformities or loss. Dr. Napolitano has dual appointments in Sports Medicine and Orthopedics. He also serves as a clinical assistant professor in the Department of Physical Medicine and Rehabilitation at The Ohio State University College of Medicine. Dr. Napolitano attended medical school at The University of Toledo prior to residency in Physical Medicine and Rehabilitation at Loyola University Medical Center and Edward Hines Jr. Veterans Administration Hospital in Chicago, Illinois. He completed his training with a fellowship in Pediatric Sports Medicine here at Nationwide Children's Hospital.

Monique L. Goldschmidt, MD, is Assistant Director of the Liver Center

Monique L. Goldschmidt, MD, a pediatric gastroenterologist and hepatologist, is assistant director of the Liver Center, and assistant medical director of Liver Transplantation at Nationwide Children's. An assistant professor of Clinical Pediatrics at The Ohio State University College of Medicine, Dr. Goldschmidt earned her medical degree from Boston University School of Medicine. She completed her Pediatrics residency as well as fellowships in Pediatric Gastroenterology, Hepatology and Nutrition, and Advanced/Transplant Hepatology at Cincinnati Children's Hospital Medical Center. Her clinical activities span all of general pediatric gastroenterology and nutrition, with expert focus on pediatric liver diseases (acute liver failure, neonatal cholestasis, biliary atresia, non-alcoholic fatty liver disease (NAFLD), autoimmune hepatitis and viral hepatitis), as well as pediatric liver transplantation.
