NEWS YOU CAN USE

Maninder Singh Kalra, MD, PhD, Named Director of Pediatric Sleep Disorder Center

Maninder Singh Kalra, MD, PhD, has recently been named as director of Nationwide Children's Pediatric Sleep Disorder Center. Dr. Kalra received his undergraduate and medical education at the Punjab University in India. He completed pediatric residency training at Dayanand Medical College and Hospital at the Punjab University. Dr. Kalra trained in pediatrics

at St. Joseph's Children's Hospital in New Jersey. His pediatric pulmonology fellowship was completed at the Cincinnati Children's Hospital. Dr. Kalra also earned his MS and PhD in epidemiology at the University of Cincinnati. He is certified in pediatrics, pediatric pulmonology and sleep medicine.

In 2009 he joined Midwest Sleep Medicine Consultants as the medical director; in 2016, he returned to academic medicine as the medical director of the sleep center at Dayton Children's Hospital and was appointed chief of the Division of Sleep Medicine in 2018. While at Dayton Children's, he grew the program substantially in scope and size. Dr. Kalra has published numerous articles on his work in sleep medicine. He also has experience teaching and lecturing at a regional, national and international level on a variety of pulmonary-related topics.

"We are delighted to welcome Dr. Kalra to the Division of Pulmonary and Sleep Medicine at Nationwide Children's Hospital as the new director of Sleep Medicine," says Karen McCoy, MD, Chief, Division of Pulmonary Medicine. "Dr.

Kalra was selected from a robust national search. Upon coming to Nationwide Children's Hospital this July, he will lead a growing group composed of pediatric psychiatrists, psychologists, pulmonologists, neurologists, and a multidisciplinary team with expectations of guiding the clinical and academic growth of this program to its fullest potential. We are very enthusiastic about his arrival and the planned physical growth of our sleep clinics and laboratories."

Praveen Goday, MD Named Director of the Nutrition and Feeding Programs

Praveen Goday, MD, is a pediatric gastroenterologist at Nationwide Children's Hospital. He is the director of the Nutrition and Feeding Programs, which provide nutrition care throughout the hospital system and care to children with feeding problems. He is a clinical professor of Pediatrics at The Ohio State University.

Dr. Goday is a graduate of Madras Medical College in India. He is board certified in pediatric gastroenterology and nutrition. He is active at the national level in promoting pediatric nutrition. He is currently serving on the Committee on Nutrition of the American Academy of Pediatrics and the board of the American Society for Parenteral and Enteral Nutrition (ASPEN). Dr. Goday has been recognized by several societies for his work in pediatric nutrition and has received the Distinguished Nutrition Support Physician Service Award from ASPEN (2018), the Master Educator Award for sustained educational scholarship from the North American Society for Pediatric Gastroenterology, Hepatology and Nutrition (NASPGHAN) (2021) and Honorary Membership of the Academy of Nutrition and Dietetics (2022). Dr. Goday's research interests include diverse efforts to improve feeding, nutrition and growth in children with various disease states.

NATIONWIDE CHILDREN'S

When your child needs a hospital, everything matters.®

In 2019, Dr. Goday was the lead author of the paper that defined pediatric feeding disorder, which has served to unify this common but understudied condition. He has also co-authored important publications such as the original paper that identified the key concepts of pediatric malnutrition and the guidelines for nutrition provision to critically ill children. He has also edited two books: "Pediatric Critical Care Nutrition" and "Pediatric Nutrition for Dietitians."

New Streamlined MOC Part 4 Attestation Form

Claim credit on existing projects by submitting the new attestation form by November 11, 2022.

Don't forget to submit new QI Projects by October 21, 2022.

For more information and all paperwork, visit the ANCHOR MOC page. Search for 'MOC.'

The ABP awards 25 MOC Part 4 points per attestation. Other boards may vary. Questions? Email MOC@NationwideChildrens.org.

COMMUNITY PROVIDER CORNER

Nationwide Children's Patient Financial Assistance Program

Nationwide Children's is committed to offering financial assistance to people who have health care needs and are not able to pay for care. No child will be denied care due to inability to pay for services. We accept most insurance plans, including Medicaid. Nationwide Children's has financial assistance programs for those who qualify. Financial support staff are available to help families sign up for Medicaid or to find out if they qualify for financial assistance. For more information or to obtain a copy of our Financial Assistance Policy, contact Patient Accounts at 614-722-2055 or visit [NationwideChildrens.org/Financial-Assistance](https://www.nationwidechildrens.org/Financial-Assistance). For Nationwide Children's Toledo, contact Patient Accounts at 888-908-2498 or visit [NationwideChildrens.org/Locations/Toledo/Patient-Resources/Financial-Assistance](https://www.nationwidechildrens.org/Locations/Toledo/Patient-Resources/Financial-Assistance).

Save the Date: Annual Research Retreat

The Annual Research Retreat will be held on Wednesday, November 16, from 8:30 a.m. to 5:30 p.m. at the Nationwide Children's Hospital Conference Center and Ohio Union at The Ohio State University. Participants can select one of six thematic sessions to attend in the morning, followed by short,

traditional research presentations highlighting integrated research collaboration within Nationwide Children's. Nobel Prize winner, Charles M. Rice, PhD, will be this year's keynote speaker. All are welcome to attend. Registration is required. For more information, search "2022 Research Retreat" on ANCHOR. Or contact Sara Marchionda at Sara.Marchionda@NationwideChildrens.org.

MOMENTS IN HISTORY

1948-Timken Hall was built as a nursing student dormitory. It had many uses after that, including clinics and office space. In 2020, the demolition of the building made way for more ground parking and very nice green space.

1978-There were 104,000 outpatient visits. In 2020 there were 1,600,000 outpatient visits.

FEATURED PHYSICIAN

Maria Stamatakos, MD, is the medical director of Early Childhood Mental Health in the Division of Child and Family Psychiatry. She is the assistant professor of Psychiatry at The Ohio State University College of Medicine. In this role, she works closely with a multidisciplinary team of master's level clinicians, occupational therapists and speech pathologists to

provide evidence-based services to children from birth to kindergarten age. She is also involved in new program development and expansion for prevention and treatment services. Dr. Stamatakos also partnered with CDC Head Start to start the first Therapeutic Interagency Preschool Program for children who have experienced or are at high risk for preschool expulsion. Dr. Stamatakos completed the Combined Pediatrics, General Psychiatry and Child and Adolescent Psychiatry at Cincinnati Children's Hospital. She earned her medical degree from the University of Cincinnati College of Medicine and Bachelor of Natural Sciences from Xavier University, both in Cincinnati. Dr. Stamatakos' professional interests include development, attachment and the effects of maltreatment on early childhood development.

AWARDS & RECOGNITION

Physician Recognition

Medical staff leadership would like to acknowledge physicians for the positive comments they recently received from patients and families. These comments are only a brief sample of the many compliments our physicians receive regularly.

Charles Elmaraghy, MD, FACS, FAAP, Otolaryngology

"Dr. Elmaraghy is the best doctor I have personally ever met. With the number of children he sees daily, you can tell he loves his job and that each child he treats he 100% cares and wants them to be better. I'm beyond grateful for what he did for my son. Thank you so much, Dr. Elmaraghy!"

V. Rama Jayanthi, MD, Pediatric Urology

"We love Dr. Jayanthi! He is an amazing doctor! We are grateful for you and your team!"

Jeffrey R. Leonard, MD, Pediatric Neurosurgery

"The absolute best! Very detailed, explains things so we understand and has a great sense of humor. So glad he came into our lives!"

Tahagod Mohamed, MD, Nephrology and Hypertension

"Dr. Mohamed is so patient and great at explaining everything. She talks to <my son> to make sure she covers all his questions."

Adam Ostendorf, MD, Neurology

"Dr. Ostendorf is an amazing doctor to work with, and I feel fortunate that we are able to learn more about the genetic underpinnings of epilepsy with his collaboration!"

Jonathan Pindrik, MD, Pediatric Neurosurgery

"Dr. Pindrik performed surgery for my son. He seriously changed all our lives, and I can never thank him and this hospital enough!"

Whitney Raglin Bignall, PhD, Psychiatry and Behavioral Health

"We need more like you, Dr. Whitney Raglin Bignall. Our children need you. Our society is better by you."

Jordee Wells, MD, MPH and Megan Waldrop, MD Announced as PEDSnet Scholars

The PEDSnet Scholars Program is the largest national grant and career development initiative awarded to support training of researchers conducting patient-centered research within learning institutions. Dr. Wells, a pediatric emergency medicine physician and principal investigator in the Center for Health Equity and Outcomes Research, and Dr. Waldrop, a pediatric neurologist and principal investigator in the Center for Gene Therapy, were two of nine researchers named to the third PEDSnet Scholars cohort.

HEMOCARE UPDATE

Homecare Updates for Providers

RSV/Synagis Season: Providers, please visit our Synagis program page for 2022-2023 updated materials for you and your patients. Providers using Epic, search Homecare and open the "What's New" tab for information on sending your referral

to Homecare via Epic. Synagis Referral Checklist sheet for Epic and non-Epic users is available for providers on our webpage under the Resources for Professionals tab.

Signed Orders Request: The timeliness of provider signatures on Plans of Care (POC) continues to be a hurdle for successfully completing patient referrals. Whether Homecare receives a referral via phone, fax or Epic, a POC and order with the provider's signature must also be sent to complete the referral. For providers not on Epic, fax signed order to (614) 355-1182. If a POC is not included at the time of referral, the individual order will be sent to the provider's 'In Basket' for review and signature. Signed orders/POCs are always needed to schedule and provide ongoing patient care, accurately bill insurance and remain Medicaid compliant. We appreciate referring providers working with us as One Team to make this happen.

Asthma Express: Fall can mean increased allergens in the air and involvement in sporting events with back-to-school activities. Both can be triggers for more frequent asthma episodes in children. Homecare's in-home asthma management program provides education and support to patients and their families. The Asthma Express program helps children manage their asthma and keep episodes from becoming acute. Fact sheets for providers and families are available on our webpage.

Ohio's ONLY Pediatric Home Care Conference on October 14: This conference provides value-added content for clinicians and administrators who work with pediatric patients with acute or chronic health care needs that require additional supportive care at home. More information about this conference is available in the Interprofessional Education section of this publication.

If you have questions regarding our services or programs, contact Carolyn.Figi@NationwideChildrens.org.

INTERPROFESSIONAL EDUCATION

2022 Pediatric Home Care Conference

Supporting Home Care Staff. Elevating Patient Care.

Friday, October 14, 2022

Co-hosted by the Ohio Council for Home Care and Hospice. Attendees can register to attend either virtually or in person at Nationwide Children's Hospital Conference Center. The first 100 to register for this event will receive a copy of Kim Regis' book, "Meeting Just Fine – A Life-Changing Encounter."

The intended audience includes nurses, social workers, hospice and palliative care providers, discharge planners, care coordinators, home health administrators, complex care

providers, home health aides, pharmacists, occupational and physical therapists, chaplains, speech therapists and child life specialists.

Presentations include:

- Complex care patient needs: inpatient to home
- The journey to board certification in a sterile compounding pharmacy: why it's needed in today's climate of patient safety
- Successful hospice and palliative care plans: using an interdisciplinary team
- Massage therapy and music therapy co-treatment: case studies
- Pediatric tools for success: ideas and strategies to help prepare patients for procedures: takeaways such as coping kits for siblings, visual supports, and language to use for successful visits in the home
- Successful onboarding: onboarding, training and continued education of staff
- Pharmacy: USP 800 Surface: a GPS check-in
- Death and dying: the team approach to bereavement
- Complying with regulations and retaining your sanity
- Cultivating resiliency: the positive advantage

For more information, including about continuing education credits, visit NationwideChildrens.cloud-cme.com/2022HomeCare.

Pediatric Dermatology Symposium

Friday, October 21, 2022

Presented in person from Nationwide Children's Hospital Education Center

This in-person conference, hosted by Nationwide Children's Dermatology Clinic team, highlights updates on pediatric dermatologic conditions frequently seen in primary care practice. The goal is to equip primary care providers with the knowledge and resources to confidently care for these patients within their setting.

Presentations include:

- Infantile hemangiomas: shifting management paradigms
- Not everything red is a hemangioma
- Dispel the myths: common misconceptions in pediatric dermatology

- Pediatric vulvar conditions
- Nursing showcase: what's going on at Nationwide Children's Dermatology
- Fever & rash in the pediatric patient: the bug vs. drug conundrum
- Approach to alopecia in the pediatric patient
- Newborn skin eruptions

There will be panel Q & A sessions as well. Breakout sessions will include hands-on treatments for warts/molluscum, eczema, acne and psoriasis. For more information, visit NationwideChildrens.cloud-cme.com/2022Derm.

2022 Neuroscience and Headache Symposium: Guidance for Pediatric and Family Practice

Friday, October 28, 2022

Presented virtually and in person from Nationwide Children's Hospital Conference Center

The 2022 Neuroscience and Headache Symposium will provide pediatric and family primary care providers with an opportunity to learn the most up-to-date best practices in neuroscience care and network with peers across the region. This year's symposium features additional afternoon breakout talks focused on headache topics and management. Content applies to advanced practice nurses, physician assistants, and other health care professionals who care for children, adolescents, and young adults with neurological problems.

Presentations include:

- Hydrocephalus
- Tourette syndrome and functional movement disorder
- Febrile seizures
- Primary headache disorder in children and adults
- Concussion and post-concussion syndrome
- Epilepsy adult transition of care
- Advances in migraine management
- Intracranial hypertension

For more information, visit NationwideChildrens.org/Conferences.

2022 Symposium on Sickle Cell Disease: Balancing the Risks and Benefits of Disease Modifying Therapies, Transplantation and Gene Therapy

Friday, November 11 – 12, 2022

Presented virtually and in person from Nationwide Children's Hospital Conference Center

This symposium will provide information to our regional colleagues and our patients and families on current clinical trials and advances in the field of disease modifying therapies (DMT), stem cell transplantation (SCT) and gene therapy in sickle cell disease (SCD). This symposium aims to critically analyze and review the pros and cons of these newer treatments, including curative options.

On Friday, November 11 is the Professional Track; and a Family Track is on Saturday, November 12. The purpose of the Family Track is to provide education to patients and families affected by sickle cell disease.

Presentations include:

- Living with sickle cell disease
- What's new in matched sibling donor (MSD) for SCD
- Alternative donor transplant options
- Gene therapy for SCD

For more information, visit [NationwideChildrens.org/Conferences](https://www.NationwideChildrens.org/Conferences).

Additional Conferences

Nationwide Children's Hospital offers a broad spectrum of learning and training opportunities for medical professionals. To learn more or register for an upcoming conference, visit [NationwideChildrens.cloud-cme.com](https://www.NationwideChildrens.cloud-cme.com).

- September 14-17, 2022 Society for Pediatric Urgent Care's 8th Annual Conference
- September 29-30, 2022 Annual IMPAACT Summit – *Virtual and in-person*
- October 7, 2022 Therapeutic Recreation Conference
- November 18, 2022 Pediatric Sports Medicine and Orthopedics Conference – *Virtual and in-person*
- December 7-8, 2022 Addressing Racism in Prenatal Care- *Virtual and in-person*

Simulation Center

Nationwide Children's Hospital Simulation Program supports the hospital's guiding principle to "Create a safe day every day." Accredited by the Society for Simulation in Healthcare, Nationwide Children's Simulation Program provides opportunities for various medical professionals to practice technical skills, medical judgment and collaborative teamwork. Simulation activities incorporate a variety of simulation modalities and methodologies, including state-of-the-art simulators, patient care environments, virtual reality and task trainers. Typical simulation sessions place the learners in a safe and controlled learning environment where they actively participate in highly immersive, realistic and high-risk scenarios. All simulation activity is aimed at improving patient safety and outcomes, effectiveness and efficiency of healthcare services. To learn more or schedule a tour, please email Simulation@NationwideChildrens.org.

Conference Center

The Nationwide Children's Hospital Conference Center provides conference and meeting space for Nationwide Children's hosted conferences, senior leadership and foundation events, and large meetings that cannot be accommodated in the Education Center. All the conference rooms can provide livestreaming, recording and video conferencing. To schedule a tour or for more information, contact Sommer Hengstler, Conference Center Specialist, at (614) 355-7799. (See hospital COVID-19 guidelines for meetings and training.)

Event and Conference Planning Support

Nationwide Children's Hospital supports continuing education through the provision of professional conferencing services via the department of Interprofessional Education & Conferencing. Depending on the size and scope of your event, our conference and event coordinators provide a full range of services to ensure your event is a success. For more information and to complete a pre-application form, email IPEoffice@NationwideChildrens.org.

GRAND ROUNDS

Pediatric Grand Rounds

Pediatric Grand Rounds takes place every Thursday from 8 to 9 a.m. Pediatric Grand Rounds have returned to live presentations in Stecker Auditorium. The virtual option to attend is also available. A schedule of upcoming and prior recorded sessions is on the Nationwide Children's Physician Connect app and the hospital Intranet (ANCHOR) calendar. Learn more about Pediatric Grand Rounds at bit.ly/PediatricGrandRounds.

Upcoming sessions are listed:

Date	Topic	Speaker and Institution/Department
9/8	Epidemiology of Autism and Other Developmental Disabilities	Marshalyn Yeargin-Allsopp, MD Centers for Disease Control – Behavioral Health
9/15	Behavioral Health Integration: Supporting Primary Care on the Front Lines of the Pediatric Mental Health Crisis	Cody Hostutler, PhD Nationwide Children's Hospital – Psychiatry and Behavioral Health
9/22	Pediatric Pulmonary Evolution in Academic Medicine	Robin Deterding, MD Children's Hospital of Colorado – Pulmonary
9/29	Heiser Lecture: Exploring the Common Intersection of Neurodiversity and Gender Diversity	John Strang, PsyD Children's National – Neuropsychology Lauren Matera, MD Nationwide Children's Hospital – Adolescent Medicine
10/6	Fetal Program	Oluyinka Olutoye, MD Nationwide Children's Hospital – Pediatrics
10/13	The Evaluation of the Febrile Infants 60 Days and Younger: Where Do We Stand in 2022 After the AAP Guidelines?	Nathan Kuppermann, MD, MPH University of California, Davis – Emergency Medicine and Pediatrics
10/20	Rohyans Family Lectureship: Treating Myopia in Children	Michael Repka, MD Johns Hopkins – Ophthalmology
10/27	Newer Anticoagulants for Clinicians: Integrated Thrombosis Clinical and Translational Research Program	Bryce Kerlin, MD Nationwide Children's Hospital – Hematology/Oncology/BMT

Medical Leadership Program

The Medical Leadership Program (MLP) is accepting applications for the 2023 cohort. The revised MLP will be 12 months in length and consist of two 60-minute live interactive sessions per month, including peer coaching. The cohort will be limited to 16 participants to enhance interactivity and networking. Applications will open online on ANCHOR on September 6, 2022.

CloudCME

To register for educational activities, manage your profile and view your transcript, log in to **NationwideChildrens.cloud-cme.com**. Click the “Help” button if you need assistance in getting started or have other questions.

You can also download the CloudCME app to view the calendar of education offerings, use your phone to view and listen to on-demand courses like Pediatric Grand Rounds, update your profile and view your evaluations, certificates and transcript. You can find it on the App Store for Apple iOS and Google Play for Android. Use our group code to get started: **nationwidechildrens**.

Download the Nationwide Children's Physician Connect App

Download the Physician Connect App for a wide array of expert pediatric content direct from Nationwide Children's. The app includes resources, calculators, a provider directory, Nationwide Children's locations, news and more.

Lounge and Learn

The Medical Staff Office is pleased to welcome you back to the upcoming Lounge and Learn sessions on the second Friday of every month at 7:30 a.m. via Webex. If you have any questions or would like to receive invites to the sessions, please email **Bruce.Meyer@NationwideChildrens.org** or **Rhonda.Burk@NationwideChildrens.org**, or call our office to leave a message at (614) 722-4550.

Upcoming Virtual Sessions:

- September 9 – Drew Duerson, MD, Use and Benefit of Musculoskeletal Ultrasound in Sports Injuries
- October 14 – Kirsten Tulchin-Francis, PhD, Gait Lab: Availability and use for Pediatricians and Ortho
- November 11 – Amit Lahoti, MD, Endocrinology Update and Advances That Affect the General Pediatrician
- December 9 – Marc Michalsky, MD, MBA, Robotic Update and Advances That Affect the General Pediatrician

Surgical Grand Rounds

Surgical Grand Rounds are every second and fourth Wednesday of the month. Learn more by searching “Surgical Grand Rounds” on ANCHOR. If you have questions or would like to receive invites to the Surgical Grand Rounds, email **SurgeonInChief@NationwideChildrens.org**.
