NEWS YOU CAN USE

Families Can Now Schedule an Appointment with Sports Medicine Online

Nationwide Children’s has developed a new online scheduling tool that allows families to conveniently schedule an appointment with our Sports Medicine program. By completing the online form, users can choose the sports medicine physician and a date and time that works best for their schedule. To schedule an appointment with Sports Medicine, visit NationwideChildrens.org/SportsMedicineScheduling.

Newark Close To Home Center Temporarily Relocated

In order to improve our facility and better provide services at our Newark Close To Home Center, we are renovating the entire building. Effective February 3, our services have temporarily moved to a different location, located ½ mile away at 1960 Tamarack Road. The renovation will take approximately 3 to 4 months. For more information, visit NationwideChildrens.org/Newark.

New Resources for Families for the New Year

Looking for new resources to provide your patient families this year? The Children’s Advocacy Project (CAP4Kids) has them. Check out new resources for your patient families on emergency food, clothing, transportation and legal services. Sign up for the monthly newsletter to receive up-to-date resources in your inbox. To help your patient families with resources all year long, put a link to CAP4Kids on your website. To learn more, visit CAP4Kids.org/Columbus.

FEATURED PHYSICIAN

Mannohan “Manu” Kamboj, MD has been named chief of the Division of Endocrinology at Nationwide Children’s Hospital. Dr. Kamboj is a professor of Pediatrics at The Ohio State University College of Medicine and has been serving as section chief and interim division chief since 2014.

Dr. Kamboj is a nationally recognized figure in pediatric endocrinology quality and safety. Under her leadership, Nationwide Children’s is one of ten sites in the National Type 1 Diabetes Exchange Quality Improvement Collaborative. This initiative focuses on access to therapies, innovative technologies in the field and new diabetes care practices for children and adolescents with type 1 diabetes. She has various leadership roles in the Pediatric Endocrine Society, including participation on multiple Education Committee initiatives and work as co-chair of the Drugs and Therapeutics Committee. Locally, Dr. Kamboj is involved in a variety of important hospital committees, including the Practitioner’s Compliance Committee and The Diagnostic Error Taskforce.

Dr. Kamboj received her medical degree from Christian Medical College in India and completed her residency in pediatrics and then fellowship in pediatric endocrinology from New York University Medical Center, NY, NY.
Lee Ann Wallace, RN, MBA, NEA-BC, Named Chief Nursing Officer

Following a national search, Lee Ann Wallace, RN, MBA, NEA-BC, current vice president of Neonatal Services at Nationwide Children’s, has been selected senior vice president and Chief Nursing Officer (CNO) effective March 20.

Wallace began her career as a staff nurse at the University of Kentucky Children’s Hospital in 1978. Prior to Nationwide Children’s, she gained nearly three decades of experience as a clinical nurse manager, educator, service line leader and director of women’s and children’s services at four different health systems.

In 2012, Wallace joined the team at Nationwide Children’s as the Neonatology service line administrator, and in 2016 was promoted to vice president of Neonatology Services. She earned a Bachelor of Science in nursing from the University of Kentucky and obtained her MBA in healthcare administration from the University of Findlay. Wallace was instrumental in growing Nationwide Children’s Neonatal Network, now nationally recognized as the largest in the country.

PRIMARY CARE MATTERS

Primary Care Matters is a guest column written for MedStat by a local pediatrician or primary care provider.

Taking Care of the Whole Patient: Our Behavioral Health Integration Journey

Written by Randy Brown, MD, Olentangy Pediatrics

In a pediatric practice, a physician should be willing and able to provide quality behavioral health care and advice. In a busy practice, however, there is a challenge: how do we meet the ever-growing behavioral and psychological needs of patients and families and how can we better meet those needs promptly and give our patients the best care possible?

The solution for the seven physicians and team at Olentangy Pediatrics was to hire Dr. Claire Ackerman, a child psychologist. She joined our staff at Knightsbridge Blvd, in Columbus, both as an expert in and a champion of behavioral health:

- She is an expert in the diagnosis of mood disorder/anxiety/ADHD and an expert in the treatment of chronic pain and suicidal thought.
- She is also a champion for our younger patient’s families who needed advanced behavioral strategies for meal time, bed time and “toilet phobia” (just to name a few).

To continue reading Dr. Brown’s article, see the insert in your packet or visit NationwideChildrens.org/MedStat.

INNOVATION AND DISCOVERY

Read more news from The Research Institute at NationwideChildrens.org/Research-News. Addition information on these topics at NationwideChildrens.org/ MedStat.

Reducing Asthma-Related Emergency Department Visits

Asthma is a common reason children visit the emergency department (ED). Through serial interventions and teamwork, a quality improvement initiative reduced asthma-related ED use rates by an average of nearly 4% per year over an 8-year period. Learn how at PediatricsNationwide.org.

Tackling Physician Burnout and Moral Injury

On average, a physician a day dies by suicide in the United States. Why do some doctors develop burnout, moral injury and long-term mental health conditions? What can be done about it? Learn how to protect and improve physician wellbeing at PediatricsNationwide.org.

Metabolic and Bariatric Surgery Recommended for Adolescents With Severe Obesity

Studies suggest that metabolic and bariatric surgery are safe and appear to be the only therapy that enables severely obese adolescents to keep weight off while reducing their risk factors for cardiovascular and metabolic diseases and osteoarthritis. Learn more at PediatricsNationwide.org.

MOMENTS IN HISTORY

- 1963 – Dr. Earl Baxter, chairperson of Pediatrics and Medical Director of Columbus Children’s Hospital (now Nationwide Children’s), retires.
- 1964 – Children’s Hospital Research Foundation is established.
AWARDS & RECOGNITION

2020 Physician Recognition Award Nominations

The Medical Staff Recognition Committee is accepting nominees for the 2020 Career Contribution Awards, Golden Stethoscope Awards and Art of Medicine Awards. The recipients of these awards will be recognized at the Physician Recognition Awards event on Wednesday, September 23. Guidelines and nomination forms can be found in your MedStat packet or at NationwideChildrens.org/MedStat. Please send nominations to the Medical Staff Office by March 31 via fax (614) 722-6761 or email Yvonne.Jackson@NationwideChildrens.org

HOME CARE UPDATE

Home Medical Equipment & Supplies Store Closing

The Nationwide Children’s Hospital Store at Lewis Center will be closing March 27. We are going to evaluate the “retail” model and explore other opportunities. HME will continue to work as One Team with other service lines to answer patient needs. The largest volume of HME requests come from patients discharged from Nationwide Children’s Hospital. The goal of the HME team is to streamline referral processes to provide best care for patients and families.

The HME team will continue to inventory all the orthopedic, feeding, wound dressings and aid to daily living supplies to support best patient care. The Store closing will have no impact on care, or changes with HME services for patients at point of discharge, or for physicians in the community who have patients with HME needs.

Most all HME inventory is listed on the Homecare webpage at NationwideChildrens.com/Homecare - scroll to the Home Medical Equipment listing.

As a follow-up to Homecare’s January MedStat article, see the insert “Epic Home Visit Documentation and Required Signed Orders.” Additional information regarding Epic and signed orders can also be found on the Homecare Anchor page http://anchor.columbuschildrens.net/homecare-and-hospice under “What’s New” tab.

Visit NationwideChildrens.org/Homecare for information on all Homecare service lines. Questions contact Carolyn.Figi@NationwideChildrens.org.

UPCOMING CONFERENCES

Communicating Medicine: Practicing Evidence-Based Medicine in the Online World

May 1, 2020

Nationwide Children’s Hospital Conference Center, 520 Butterfly Gardens Drive, Columbus, OH 43215
