HOW GIFT CARDS HELP US TO HELP PATIENTS AND FAMILIES
When receiving care at Nationwide Children’s Hospital, patients and families have a wide variety of needs for resources and support, and our team works hard to be creative in meeting those needs. Gift cards for Amazon, Walmart, and Target help us to meet those needs.

Why we prefer gift cards to receiving physical donations:

- A flexible gift: We rely on gift cards to get what is most needed when it is most needed. This helps us to ensure resources are consistently available throughout the year.
- A safer choice: Donors do not have to spend time in crowded stores to get them. We do not need to quarantine items that we purchase online using gift cards and receive via shipments.
- Specialty items: We can get items that meet unique needs for development, special populations, and our cleaning requirements, these items are often not found in stores.
- Optimize the value: We often use gift cards to get needed items when they are on sale such as during back to school. This helps us to maximize the value of the gift and helps to ensure we have resources throughout the year.
**BOOKS AND MAGAZINES**
Donations of new children's books and family oriented magazines are welcome. We especially need: I Spy books, board books, new coloring books, new crossword and word search books.

The following types of materials are NOT acceptable: encyclopedias, textbooks, news magazines over a year old, books or magazines with adult themes, religious themes, violent themes or scary characters.
