

FlowJo Server Edition on Mac

INSTALLATION

Click the magnifying glass icon on the top right corner. Search and launch Self Service app.

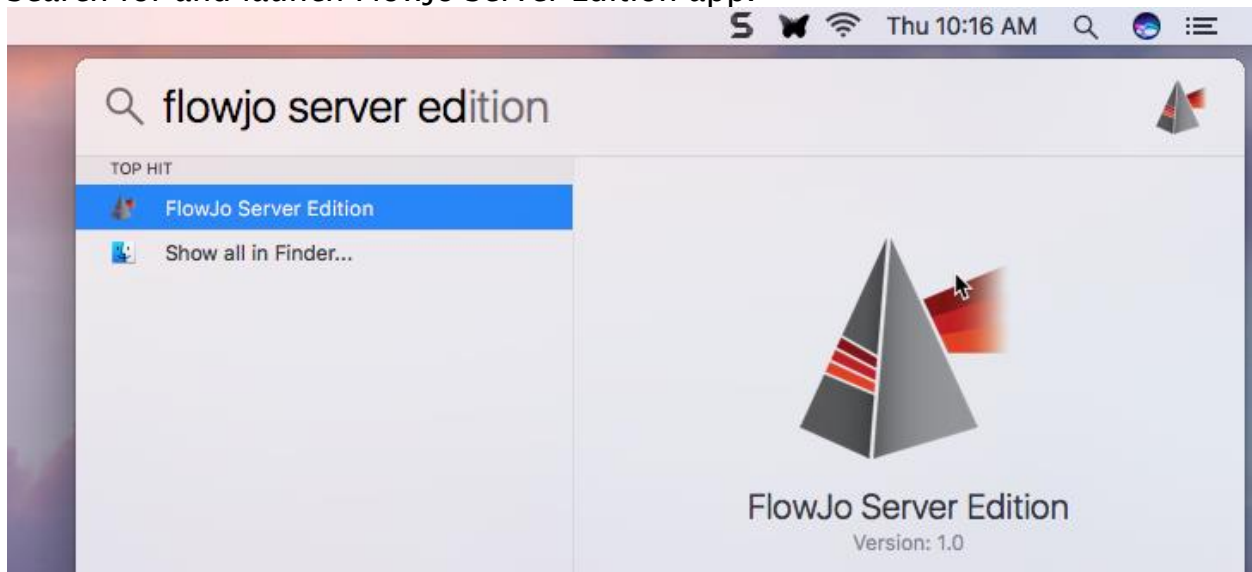

In Self Service, search for FlowJo, and install both the FlowJo and FlowJo Server Edition apps.

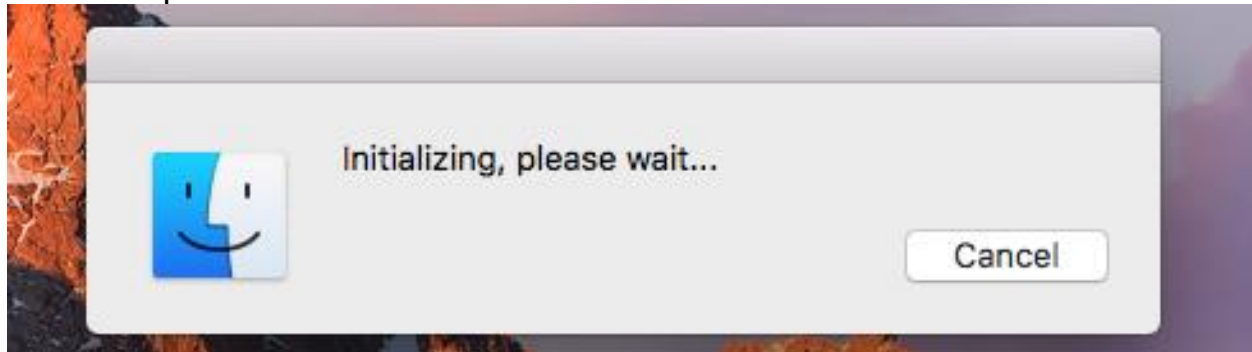

USAGE

Search for and launch FlowJo Server Edition app.

Please be patient. It takes 5 to 10 seconds for the initialization window to show.

And another 5 to 10 seconds for the FlowJo to launch.

After you are done using FlowJo, please make sure you completely quit the app in order to free up the dongle for another user to use. Click the FlowJo menu and select Quit FlowJo.
