Create an iLabs Account Thru Anchor

Click on the “eCores” link under “Research Resources” on the Anchor home page.

Click on “Register” on the eCores home page.
Click on the core facilities account link and follow the instructions for creating your iLabs account.

Step 3

You will be prompted to fill out a registration form:

Pay particular attention to the first question. If you select Research Funds you will be registered as a Research user and only have access to Research Funds. If you select Hospital Funds you will be registered as a Hospital user and have access to both Research and Hospital funds.

Click “Request Account” to finish your registration. It will take up to 24 hours to set up your account. You will be notified when you are accepted into your lab and have access to place an order.

Note: you must be accepted into your requested lab before you will have access to order.
