

# Summer Camp Questionnaire

**Before you decide on a summer camp for your child, ask these questions:**

- What is the counselor-to-camper ratio?
- What are the ages of the camp's counselors, and what training do they receive?
- How does the camp handle behavioral and disciplinary issues, special needs, emergencies, homesickness and other adjustment issues?
- Does the camp have written health policies and procedures that have been approved by a pediatrician or family physician?
- How is medication handled?
- Are camp staff members trained in CPR and concussion recognition and management?
- Does the camp provide and require the use of safety equipment such as helmets for horseback riding, cycling, football, skateboarding and other activities?
