Center for Colorectal and Pelvic Reconstruction (CCPR) 2021 Live Webinars

A series for parents of children with colorectal problems

Webinars

Colons & COVID-19: How CCPR is Using Telehealth

February 24 | 7-8:30 p.m. EST

Content:

- Telehealth services
- What to expect on a telehealth call
- Who qualifies for telehealth

- Remote bowel management program
- Limitations of a telehealth visit

Speakers:
Stephanie Vyrostek, BSN, RN; Natalie Rose, BSN, RN; Sarah Driesbach, APN, CNP; Rachel Tyson, MSW, LSW

Colorectal Myths

April 28 | 7-8:30 p.m. EST

Content:

- Myths - the safety and side effects of prolonged laxative and enema use
- Causes and complications of a functional constipation diagnosis
- Myths - all patients with Hirschsprung Disease do well
- Myths - anorectal malformations are a colorectal only problem
- Myths about botox use

Speakers:
Richard Wood, MD; Kent Williams, MD; Patrick Queen, BSN, RN; Casey Trimble, APN; Andy Sager, PharmD

Toileting for Kids With Complex Colorectal Needs

June 23 | 7-8:30 p.m. EST

Content:

- Supporting socializing with peers
- Talking to peers about your diagnosis
- Ways to promote coping with visual changes to body/body image

- Ways to promote coping with flushes, enemas, ostomy bags changes and more
- Promoting self-care and independence with flushes, enemas and ostomies

Speakers:
Rose Schroedl, PhD; Jackie Cronau, RN, CWOCN; Corinne Syfers, CCLS; Mitch Ellinger, CPNP-PC

Redo Colorectal Surgery: Why is it Needed?

September 29 | 7-8:30 p.m. EST

Content:

- When a redo or additional surgery is needed after an anorectal malformation repair
- Benefits vs. complications of redo surgery
- Research findings on continence potential after redo surgery
- Benefits of multidisciplinary care for patients who require redo surgery

Speakers:
Richard Wood, MD; Alessandra Gasior, DO; Kate McCracken, MD; Molly Fuchs, MD; Christina Barnes, CPNP-PC

Speakers *(in alphabetical order)*

Christina Barnes, CPNP-PC
Christina is an advance practice nurse for the CCPR. She completed her master’s degree in nursing and advance practice at Johns Hopkins University School of Nursing. Her background in neonatal, pediatric intensive care, urgent care and experience as a clinical instructor brought to the CCPR team a wealth of knowledge. She is interested in caring for the complex colorectal pediatric patient.

Jackie Cronau, RN, CWOCN
Jackie is a nurse clinician certified in wound/ostomy and has experience in caring for this complex patient population. She has a special interest in patient-family education.

Sarah Driesbach, APN, CNP
Sarah is an advanced practitioner nurse for the CCPR. She completed her master’s degree at The Ohio State University where she received specialized training in Health Coaching. She cares for patients with complex colorectal, gynecological and urological conditions.

Mitch Ellinger, CPNP-PC
Mitch is an advanced practice nurse for the CCPR. He completed his Masters of Science in nursing at The Ohio State University. He previously worked as a primary care provider in private primary care offices.

Molly Fuchs, MD
Molly went to medical school at Oregon Health & Sciences University followed by urology residency at the University of Utah. She completed her pediatric fellowship training at Nationwide Children’s. Her special interest is in reconstruction in children with myelomeningocele, anorectal and cloacal malformations.

Alessandra C. Gasior, DO
Alessandra completed a minimally invasive pediatric surgery fellowship and a pediatric colorectal surgery fellowship at Nationwide Children’s and an adult colorectal fellowship at The Ohio State University Wexner Medical Center. She is a practicing pediatric colorectal surgeon heading the Transitional Care Center.

Kate McCracken, MD
Kate is a gynecologist with the CCPR. She is also a member of the Department of Pediatric and Adolescent Gynecology at Nationwide Children’s.

Patrick Queen, BSN, RN
Patrick is a nurse clinician for the CCPR. He received his Bachelor of Science in nursing from Mount Carmel College of Nursing and has experience ranging from adult orthopedic medicine to pediatric emergency care before joining CCPR.

Natalie Rose, BSN, RN
Natalie is a clinical leader for the CCPR. She completed her bachelor’s degree in nursing at The Ohio State University. She joined the CCPR team with a background in Neonatal Intensive Care nursing and Care Coordination.

Rose Schroedl, PhD
Rose is a pediatric psychologist who specializes in care of children and their families with Inflammatory Bowel Disease and other colorectal disorders. She is also the clinical lead for Psychology Services in the Division of Gastroenterology at Nationwide Children’s.

Andy Sager, PharmD
Andy is a patient care pharmacist that rounds with the CCPR. He worked as a pharmacy intern at Nationwide Children’s during pharmacy school before completing a one-year residency at Doctors Hospital.

Corinne Syfers, CCLS
Corinne is a certified child life specialist who supports the coping of children and families with colorectal diagnoses. Her specialties include utilizing therapeutic and developmentally appropriate preparation, education and play to decrease fear and anxiety related to medical needs.

Catherine (Casey) Trimble, APN
Casey is an advanced practitioner nurse for the CCPR. She earned her master’s degree in nursing and advanced practice at Frontier Nursing University. She cares for patients with complex colorectal, urological and gynecology conditions.

Rachel Tyson, MSW, LSW
Rachel is the clinical social worker for the CCPR. She received her master’s degree from The Ohio State University in social work. She conducted an evaluation project examining the correlation between functional constipation patients and anxiety.

Stephanie Vyrostek, BSN, RN
Stephanie is the CCPR program manager. She received a master’s degree in health administration and Bachelor of Science in nursing at Ohio University. She has served as the coordinator for the CCPR’s Neuromodulation and International programs as well as a clinical leader overseeing Center operation.

Kent Williams, MD
Kent is an attending pediatric gastroenterologist and medical director of Endoscopy. His clinical interests involve all aspects of pediatric gastroenterology, with a special interest in GI disorders in children with autism spectrum disorders.

Richard Wood, MD
Richard is the colorectal surgery director for the CCPR. He is responsible for the fully integrated and collaborative CCPR program that includes pediatric surgery, urology, gynecology and GI/motility. He chairs the steering committee of PCPLC, the colorectal research consortium enrolling patients from ten U.S. children’s hospitals.

Program Fee

This program is free.

Webinar Format

The live, interactive format will allow participants to watch and listen to a presentation, followed by a live question and answer period with the presenter in the comfort of your own home or office. The webinar will be posted for on-demand viewing once the live event has concluded. The webinar link will be sent to you after program registration.

Confirmation

A confirmation email along with the webinar link will be sent to all participants.
