

When your child needs a hospital, everything matters.

Laboratory Services Important Test Announcement

STAT PERIPHERAL BLOOD, CHROMOSOME ANALYSIS TEST NAME UPDATE

Test Code: **STATPB**

Live Date: **4/1/2025**

Effective 4/1/2025, the “STAT Peripheral Blood, Chromosome Analysis” (test code: **STATPB**) test name will be updated to “**STAT Blood, Chromosome Analysis**” as both peripheral blood and cord blood samples are accepted for this testing. The remainder of the test (i.e. test description, test code, CPT codes, etc.) remains the same.

BONE MARROW TRANSPLANT CYTOGENETIC AND MOLECULAR GENETIC TESTING UPDATES

Test Code: **BMPT**

Live Date: **4/1/2025**

Effective 4/1/2025, **Bone Marrow Engraftment – Post Transplant Analysis** (test code: **BMPT**) will accept sorted cells (CD3, CD33, CD19, CD56) derived from **bone marrow** for testing.

For CD3/CD33 sorted cells, please submit an additional 4mL purple tube (EDTA) or 4mL green tube (sodium heparin) of bone marrow.

For CD3/CD33/CD19/CD56 sorted cells, please submit two additional 4mL purple tubes (EDTA) or 4mL green tubes (sodium heparin) of bone marrow.

Also effective 4/1/2025, **bone marrow** will **NOT** be an acceptable sample type for **Chimerism FISH, Post-Transplant testing** (test code: **CHIMFISH**).

All applicable test requisitions and EPIC orders have been updated to reflect these changes.

Please see the lab guide to services for additional information regarding sample submission and test ordering.

If you have any additional questions about **STATPB** or **BMPT**, please refer to the Laboratory Test Directory or call Client Services at 614-722-5477.
