**Instructions for preparation:**

1. Weigh out powder and triturate to a fine powder in mortar.
2. Geometrically add corn oil, mixing well after each addition.
3. Pour into graduated cylinder when all powder is mixed.
4. Rinse mortar with corn oil, adding rinse to the beaker.
5. QS to final volume with corn oil. Stir well.

**Calculations:**

1. **Equipment/ Supplies:**

   - **Mortar and Pestle**
   - **Graduated cylinder(s)**
   - **Weigh paper**
   - **Counting tray**
   - **Stirring rod**
   - **Amber (plastic/glass) bottle**
   - **Balance**
   - **Syringe**
